Good day all,

At this =oint in time there's 2 hold ups. We lost fiber connection to five palms =hich became my main point due to the tower change in height. The second =s again the tower being so low I'm having a hard time getting it =igned to get full bandwidth. I'm scheduled to be working on that again =n Saturday and Monday.

As soon as we get the =iber transceivers back and get five palms back up I can continue the =ignment on the LSJ. There's no way I can give a completion date it all =epends on these contingencies. Everything is ready to go just ran into =hese issues.

Regards,

Terrence =absatt
