Jeffrey,

Not to be missed. Seriously. One of =wo hot projects for September. Second invitation later. Could use some =elp. At farm, check in over the weekend: [REDACTED]

The =DGE Master Class on art for the weekend of September 26-28th is coming =ogether. I am pleased to invite you to attend as a guest of EDGE. As =ith all EDGE events, there are no charges other than taking care =f your hotel reservation. The event will be held at Cavallo Point, a =i-end resort, 21 miles from SFO in Fort Baker, near =ausalito, California and just across the Golden Gate Bridge from =an Francisco. See: <http://www.cavallopoint.com/.&nb=p;>

The class will =e led by Hans Ulrich Obrist (aka "HUO"), co-director of =ondon's Serpentine Gallery in Hyde Park, who, in 2009, was ranked #1 in =he annual "Power 100" list by ART REVIEW Magazine =f the most powerful people in the art world. (He was ranked #2 in =010, #2 in 2011, #10 in 2012, qnd #5 in 2013). He's considered =o be the world's most influential modern art curator, and =ertainly "the" most connected person in the =ontemporary art world. The Serpentine, which just brought on Michael =loomberg as Board Chairman, is the center of London's cultural =cene.

A number of artists and/architects will accompany HUO. The =irst to confirm is the one at the very top of my list: Marina =bramović. the #1 performance artist in the world ("the =performance queen") has confirmed that she will attend. Do =ot miss this! I know you are busy. Get unbusy. Repeat: Do not miss =his!!

"512 Hours", =bramović's current performance piece, is running in London =hrough August 25th at The Serpentine Gallery = <http://bit.ly/1sJp0eZ>.

HUO has also invited the =rtists John Baldessari, Jeff Koons, Philippe Parreno and Taryn Simon, =nd architects Frank Gehry, Rem Koolhas, among others. I will send =updates as we get responses.

"In the 21st century," HUO writes, "Silicon Valley could become the home of an ambitious institution, an art centre which can build bridges between art and technology. Today, information and communications technology are the world's key growth industries. Now, then, is the time for art to take its rightful place at the heart of the philanthropy of today's digital visionaries and it's the time for digital visionaries to become part of art history."
