i have a Kohler distributor contact so i will be able to get = good read on their pricing will be interesting to see =hat other vendor says as 150kw seems like overkill and 80-100 probably =ore accurate..  
i will present you with options =ext week...

Guillermo and i walk together =round the area to look all the ac units and all the appliances, =e also check how many kilowatts we consume.

600 AMP =transfer switch needed.

He told me 100 or 150 kWh =enerator Kohler should be fine for the whole house to run including all =he appliances.

They will send to you the quotes =ext week Wednesday Nov 8. It will be done before next season.
