I would love to transform the castle into a private club with very exclusive rooms, a wellness and where people can hold conferences=during the year. That's why I was talking with Luca del Bono.

In these days I've been helping out my cousin with the c=stle, working selling tickets at the entrance and learning how to cook ! I=was also checking out this massage class in Paris where I could take an in=ensive course. I would love to learn something new that I can do for you. =ope you are well. Miss you
