We went to pickup the Barge today but the person who own the "Run Aweigh" vessel has tied his boat to Big N. I spoke with Liza at Crown Bay Marina this afternoon about the situation. Carlos, My self, a potential Barge Captain and the Mechanics are all going down tomorrow morning at 11am to bring Big N home

I'll deal with Liza and the Vessel Owner once our Barge is departing the Marina. Not to worry everything is under control and I'll record the meeting =
