Subject: Photos from [REDACTED] Apartment

All of the paintwork and the bathroom looks good. If K were to move in and you wanted it perfect I think you would just have to update the appliances in the kitchen which are old, - fridge, stove and oven and possibly microwave. I have included an image of the cupboards and the counter tops in the kitchen so you can also see the material and condition of them. The counter tops are melamine. The furniture is [REDACTED] own.
