Good morning Jeffrey. I truly don't mean to impose. I know you got involved=here as a friend. I'm just wondering whether it might make sense for you a=d I to sit down and review the total picture, maybe even with Ada. We've t=lked mostly about the largest piece of this puzzle and I know you believe =e have numerous issues. Meanwhile, Carlyn and Alan define the issue in a m=ch narrower way and think we are on the way to the necessary fix. I know y=u are thinking through where we go from here-again-don't mean to be impati=nt- but I feel like there are also numerous questions on some of the small=r pieces I'd like to run by you. Maybe I could be working to address these=in parallel to your effort. Just a thought...I can also just assemble this=list and send it your way, maybe that's better- whatever works for you is =ine. Thanks!!!= This email and any files transmitted with it are confidential and intended solely for the person or entity to whom they are addressed and may contain confidential and/or privileged =material.
