Subject: Accessing Mathematica Online

A few weeks ago I invited you to the Wolfram Virtual Conference to learn more about Mathematica 10 and Mathematica Online. I wanted to follow up with information about accessing both at a discount.

When you purchase a desktop Mathematica license with Premier Service Plus, you'll receive a year of Mathematica Online, which can be utilized on your machines and mobile devices. You can also share files through the cloud between Mathematica Online and your desktop license. And getting access to Mathematica Online through Premier Service Plus will save you up to 75% compared to subscribing to Mathematica Online separately.

Here's a page to find out more about your licensing options:
<http://url.wolfram.com/lEmrknO/>

There are several promotional offers for individuals and groups that will be expiring at the end of the year. Let me know if you're interested in Mathematica or Mathematica Online, and I can check what promotional offers will provide you with the best discounts.

If you'd like to learn more about Mathematica Online, the "Introduction to Mathematica Online" talk at the recent virtual conference is a great starting point, and is now available on demand:
