Hi ███████,

Can you share which sites are y=u submitting to the directories? We can submit in bulk to receive a discoun= if you are interested.

I am working on prom=ting other photo sources currently. It seem the wiki change has not stuck. I=will share the list of those with you as well as the other search engine li=tings we are working on first thing tomorrow.

I di= not have a response from Disney Jeffrey today, so I have reached out via s=cial media accounts to try and get a response. The PED article has been sub=itted to two huff post contacts and I am waiting on response.. I expect all=of this to get handled by end of week.

We wi=l discuss the .Net site content when on phone. I know we both have ideas ar=und this.. I'd like to have this site included in directory submissions. Th= .net should be in our account by morning.

L=ok forward to your call - otherwise I will try you tomorrow morning.

Sincerely,

Tyler Shears
