Hi, Jeffrey I read over the document a couple of times and, to be frank, I don't know what sense to make of it. Even if Jack Lang is not behind it, the document is Very French. In fact it reminds me the most of Rousseau's EMILE, an educational book that has been extremely influential for centuries, even though I don't think anyone has ever followed Rousseau's recipes.

It's not that I disagree with the content--in fact, it is very 'multiple-intelligence-y', very artistic, very cosmopolitan-- all of which I like. But it is phrased at such a general level that it's not clear who could use it or what use could be made of it.

Sorry that I can't be more helpful.
