My place - 10F

I am looking for new art to put in the frames.

I had stools under the console next to kitchen but they didn't look good so returned them and am getting a simple white bench with fabric.

TV console in the same wood as my sideboard behind my desk is ordered. Bo concept have been waiting for their new season to start manufacturing in the light oak.

I made use of [REDACTED] old bedroom furniture in my bedroom. And yes the shoes are on the dresser for a reason. My dream shoes...I bought them for myself and put them there the night before surgery!

Bathroom is still the old pedestal sink and bath. But because it is in relatively good condition, we did not feel it warranted renovation when I moved in. (the one bathroom I could make peace with and agreed with [REDACTED] on the non renovating)
