**Title:** This is the beginnig of what I want to do Dear Friends,  
A blog writer with the complicity of an ex accountant of MC2  
convicted for grand Theft by the Florida Court has published an  
article on the internet that has crossed the line.

I have been in business since 35 years and I have always had a priority to take care of young girls. I have been fighting all along to see models finishing their scholarship, I have never used models as a commodity exchange, to the point that I have always paid their expenses and have never let anyone do it. Then why., suddenly, I should be the target of one person saying that I am doing Child Sex Trafficking. I am going to respond point by point to those allegations. As most of you know me since years, you will easily understand that it is a reckless disregard of the truth, nothing more than a malicious fabrication.

1/true                    Jeffrey Epstein is my friend  
2/true                    former account (maritza Vasquez) has embezzled  
more                    than a half million Dollar. We are in the process  
of                        of  
                          a civil lawsuit for assessing damages and  
restitution
