I don't speak when I m sleepy-can reveal all my secrets than :)  
Just the thing is that I hate drugs and try to take them only when it is super critical! I have a believe that our body is perfect machine and when something goes wrong it starts to send signals.and we have to cure the reason it comes from instead of drinking pain killers.  
Why I have cold than maybe once in 4 years?I never cure it with medicine.and others that drink all these tylenol,coldrex end up with cold thee times a winter!because they cut the weed when you need to rip her out with the roots so it will not grow back...

I prefer talking on the phone than emails. ( old recipe? ) , PLease read all about double blind studies, and what it means for rational thinking. Also the difference between cause and coincidence. I feel sad when people like Richard and his Wife Corey, tell me I am being careless , by not taking the time to explain things to you. They thought you were charming, and pretty , but would always be at a disadvantage , by not taking the time to learn real things as opposed to eastern europe superstitions masquarading as facts . They tortured me, with the idea that young women of your age , could still be confused about things that make you feel good , and things that cure disease. prayer, homeopathy, foot cleansing, energy work, have been with us for thousands of years, not one of those has the same power as pepto bismol. the drug store cheap solution to digestive issues.for example
