**Subject:** Library Computers

Good Afternoon Sir,

I need to pick up the iMac computers for the library. Our Apple rep here has said that she cannot ship to the USVI. I spoke to Sarah yesterday and she suggested purchasing them here and having them shipped to 71<sup>st</sup> street to be flown down on your next trip. I just wanted to get your ok to purchase one 27" for your desk and one for Sarah's office.

Let me know if it's ok to proceed when you have a minute.

Thanks,

WM
