It's about reputation and perception. Public good/service has a high premium as I begin to make money. I took a (modest and temporary, I hope) reputational hit with the book amongst my (jealous) peers cos of the tut-tutting about disclosure and speed. But that was due to the serialisation. As people read the book over the summer, the tut-tutting will subside, as it is starting to do already.

I know the advice is pure and always well meant. But sometimes you are not thinking about all dimensions which I have to juggle the whole time.
