Hi Jeffrey!

I know you are busy.... and I hate to bother you but I also know your rolodex is impressive.

I am hoping you might know of a specialist for a Wilm's tumor...

A friend of mine's 6 year old daughter is battling her second round of cancer and just received the pathology and she has a recurring Wilm's tumor.

I thought it was worth reaching out to you in hopes that you could point them to the right person.

Miss you!
