**Subject:** speaker demo

Jeffrey,  
the speaker web sight is <http://www.pmc-speakers.com/>  
Nick said he is coordinating with PMC speakers, next week may be to short of notice, but will have a definitive answer tomorrow, they would like to bring a couple models of speakers for you to demo. Nick indicated one model of speakers weighs 300 to 400 lbs.,, they will be shipped out of California. Nick thought if we are going to be at Zorro in the next 5 weeks, may provide easier demo and travel. what do you think?

PMC is preparing an email with pricing and models they would like to present for your listening, this way you can review the specs on the speakers. or if you see something that interests you on their web sight, let me know? [REDACTED]  
thank you,  
Larry
