Subject: good science to fund!

i think you should fund some cool herpes research that could seriously be revolutionary.
don't worry it's not money for me!
would you consider it if the experiments and outcomes were plausible?
SAY YES
my guess is that it would be Q4 till i knew if it was "real"

PS: yes it would involve the vagus nerve.

PPS: i would insist that the first paper that results from the work is called "what happens in vagus stays in vagus"
