Subject: LSJ Date Palms

Jeffrey,

Igala forwarded me an e mail from [REDACTED] that she is requesting to find 12 Date Palms of 20' clear trunk which he is having some trouble finding them that size from his sources.

I had a quote from Randy back in February for 30' feet of clear trunk. I just spoke with him and he can get anywhere from 20' to 40' of clear trunk.

Please advise if you want me to get a quote on the 20' that [REDACTED] is recommending or do you want to go bigger.

Also if you don't mind if you can let me know since I have not heard of [REDACTED] before what her role is on LSJ?

Thank you

Emad Hanna
