I would wait for our repaired barge to go to Puerto Rico, even if it has to make two trips. (short version, let me know if you want the long report.)

Subject: Palms in Puerto Rico

Good Afternoon,

I was told, I am to return to the Farm in Puerto Rico to tag more trees.

I want to be 100% sure that you want me to tag:
-80 more trees

(which along with the 20 I previously tagged would be 100 total trees)

* Also are All the trees to be Coconut Palms, Or do you want some other varieties as well such as; FishTail, Date Palms, Coco Plimoso, Robalini, etc.???

Please advise.

Thank You,

Igala Joseph
