Subject: summer plans

jeffrey

am back in the U.S. to deal with a severe disappointment--my publisher rejected the latest version of my book, which forced me to return to the U.S. to deal with the problem of putting it through yet another rewrite

my only commitments for sure are moving my residence on July 6th here in Jersey

and flying to Brazil circa July 26 to give the keynote lecture at the Brazilian Academy for the Advancement of Sciences (on the "science of self-deception") and a follow-up lecture in Sao Paolo on genetics, so i would return circa August 5 and probably go directly to jamaica for the month

[data from the jamaican research in may is now being entered into computers and should be ready for analysis by early july]

hope you are having a good summer

robert
