Background:

Earthjet was founded in 2005 as an air taxi franchise business. Alfred Rapetti offered in 2007 to leverage Earthjet's technology and seat model etc, and raise \$1M into a new company majority owned by Earthjet called BusinessJetSEATS (BJSI).

Rapetti could not complete the financing, we took over the effort and completed a deal with BizJetHoldings to add \$300,000. BizjetHoldings stopped short of completely funding as one partner fell victim to the recession. Management supported the company 100%, and eventually settled with the BJSI lenders/shareholders and reorganized under Greenjets - brought new equity and the Haysjet's financing. To be clear, the Haysjet Loan is a line of credit which has a limit of \$600k, and a current balance of \$560k. If the outstanding balance reaches \$600k, they can at their option convert to equity. We have no intention of borrowing additional funds under the LOC.

We have executed copies of the attached documents at our office.

Dean
