Subject: Quick check on a possible date for an MIT meeting

Dear Jeffrey,
This note is a follow-up on your request to me to possibly set-up a meeting at MIT in early July with Scott aaronson and Seth Llyod on planning for the "Cryptography in Nature" frontiers-of-research exploration meeting.
Scott Aaronson says he likely could meet us at MIT on Friday July 2nd.
Seth Lloyd has not responded to me yet. I'm expecting to hear from him soon.
Would Friday July 2nd work for you? It can be possible for me.

Allbest

--Charles Harper
PS. If you wanted to see me this coming Saturday morning, I may be in Miami this Friday for a meeting.*
I'll be deciding on the trip today or early tomorrow.
There is no need to meet in person. Just an opportunity.
*(The US National convention of the Philippine Nurses Association of America !
--One of my foci is on the globalization of nursing education.
The Philippines is the culture in the world that most prizes nursing as a profession.
They have a huge population of nursing students: over 600,000.)
