Title: Re: Hi JEE...

I'm down to the endgame. They've basically come through on everything, at least "well enough." The remaining issues concern autonomy, independence, and control — and they need to be talked through. So, I'm going out there on 12 July for a couple of days, which should tell the tale.

Meanwhile, I've been contacted by the Graduate Center at CUNY, who want me to reorg their science departments and build them into a great university. If it doesn't work out at Stanford, I'll definitely look further into this (but it's already clear that there are deep problems — many of which stem from the simple fact that it's a public university... It would be a lot more work than the Stanford job).

You OK?
