Always, Christof came late, and so it was too late to call.

Joan Feynman (Richard's very able younger sister/physicist) and John Schwartz (one of the original founders of string theory) were over the other day. They will be back. Kip Thorne, another first rate physicist, will be coming over soon. I tend to hang with a lot of physicists. Ramachandran will be coming up to stay with me next weekend. He's interesting. Neuroscience. We can give you a call next Friday.

My daughter does research in his lab and is co-authoring papers with him.

BTW, we have a high level meeting at the White House next month, busy preparing for that...

Hope all is well. I would like to talk to you about putting together that passionate minds gathering... Truly.
