**Subject:** Projectors and TV's

This is what Stereo Nick would recommend for a new projector or new tv for master bedroom on LSJ and 6th floor for 71st St. I will add to the list:

Here are three Projectors I would recommend

1- [http://www.samsung.com/us/consumer/tv-video/home-theater-projectors/full-hd/SPA900BX/XAA/index.idx?pagetype=prd\\_detail](http://www.samsung.com/us/consumer/tv-video/home-theater-projectors/full-hd/SPA900BX/XAA/index.idx?pagetype=prd_detail) this projector is getting lots of action for the price level. Its around the \$10,000 range and was designed by one of the most recognized video people in the industry.

2- <http://www.runco.com/> this is probably the most popular High End Home Theater Projectors ranging from \$15,000 to \$100,000.

3- <http://www.digitalprojection.com/Home/tabid/36/Default.aspx> I feel this is the option he should go with! This is the Projector I've been trying to get him to purchase for some time ( either the dvision or the Titan would be my recommendation. I took him to a viewing in NYC and he saw the projectors live. He was Impressed.

As far as the Master Bedroom Samsung is pretty hot right now and the Just last week introduced a new 65" LED LCD TV very nice.

Sharp also makes a 60" and 65" LCD

Let me know what else i can do as far as exact model numbers or prices
