**Subject:** Re: Midnight express

I would say 100K to 125K Max,,is fair,,, you would easily spend 70K++ on electronics, \$20k for generators and \$10K per a/c unit, which would run up the price of these boats fast.

**Nana update:**

-Carlos has a \$9,000 offer from somebody he knows for our two Verados on Nana.

-I have visited and called the Mercury dealer in West Palm that was willing to travel to LSJ for Nana repait, I think he is hesitant to travel, his not returning my calls,

**PLAN B:** Install 2 new Suzuki 175HP 4 stroke engines on Nana, Carlos said the Suzuki dealer has been wanting to work with LSJ on engine deals, current price is \$13K per engine and \$4,000 for install and rigging.

I would offer a \$27,000 total price for engines and install, SELL the Verados for \$9,000.00 AS is?

Plan C: Have Midnight Express send their Mercury mechanic to STT. he is excellent, but may not be a reasonable approach with Harris.

is this approved to sell verados and go with new Suzuki's ? (Carlos and Bruce have agreed).

thank you,

Larry
