Subject: Jeffrey!!!!!!!!!!!!

it is a pleasure you care of me...thank you so much...i am doing fine. especially now! i got the opportunity to leave for few days... my brother gave me his travel miles which he've collected for a long time, it was enough to get a ticket to geneva!i paid just 400 litas for airport due .it is not the best time to travel and spend money...but it is the best thing what could happen recently... i am very sentimental...i need to go there sometimes... walk around the lake,old town. the breath there is so clean,so fresh... everything smells like a fields of flowers...i don't need much...just to feel the light move of that place. i've discovered there so much.I thank you! tomorrow i am going take the plane. i will stay at my friends apartment for couple of days...Axana,thats the name of girl, she lives in the same place where i've been living! my favorite place in geneva! i will grip the chance to meet pilates trainer and talk to her about opportunity to study it and get the certification. it would come in useful I am sure. But the most important i will change my surroundings...i am sick a bit of Lithuania...

Recently i go out, what i never done before so often...i meet people...i communicate easily...i enjoy it sometimes, but i see so much fake colors in it...however, life is interesting with all this..just is very important to understand one's needs and to choose...i think the best thing what God gave for humanity is the possibility to choose!

We still on the way to realise our idea... i am talking about the store...just the people suggested to wait a bit, because the prise of rent should change soon...in geneva i will try to get a contexts from little beautiques...would be good to have someone who would send a bags and other stuffs from different places!

how are you? when are you coming back from vacation? the whole world missed such a generous man..

Big Big Kiss.
