Subject: smart people symposium

JE will fund this.
Needs to be in West Palm Beach -- a place he can go.
JE -- can your office handle all logistics for the area?

Preliminary List -- Please send me all your ideas, names

Stuart Kauffman
George Paun (and anyone else we can find who is into membrane computing)
John Cacioppo
Howard Nussbaum
Colin Camerer
Jim Heckman
Steven Rose
Peter Teal (sp?)
David Sloan Wilson
Seth Lloyd
Terry Deacon

Interdisciplinary mix
Let's consider getting 50 folks
maybe run it as a Foo-style thing
I will see if Sara/O'Reilly can help with that, what it would cost we could even
go up to 80-100 if we did that

Separately -- JE, are you interested in something on risk -- what makes people
take it? etc. Dan Ariely style/with Dan?
if he's into it.
