Jeffrey,  
just FYI, the dimensions of the Convair 240 on the ramp in STT are (wingspan 92' and length 75 feet) and the DC3 next to it are: 95' wingspan and 64 feet length, I think your hanger drawing is very close, and the space will work:

Global Express:

Tail height: 26 feet  
Wing Span: 94 feet  
length: 100 feet

Gulfstream 5:

Tail height: 26 feet  
Wing span: 94 feet  
length : 97 feet

Sikorsky S76: helicopter

tail height: 15 feet  
main rotor blades: 44 feet  
length: 54 feet
