Jeffrey,

The only thing we negotiated was getting them to waive 10 days of lay away totaling \$ 2,500.

All of this work is parts and labor which I checked with Casey since he has been overseeing this whole process

Jeffrey,

We will need to send out a wire in the amount of \$ 31,212 Monday morning in order to get the boat picked up on Monday.

Please note there is still an outstanding invoice for the actual installation of the engines which is about \$ 8k and some additional smaller items that have yet to be invoiced

Thank you
