Subject: Re: telecommunication

I was very skeptical about it, which is why in my two years at ASU I hadn't bothered to go see it.. I thought it was all flash and no substance.. but my opinion evolved when I went and saw it.. I am convinced it could be useful.. for certain things.. and one could do very interesting experiments on the people involved in the room that might be very very informative.. so come see it with me sometime and reserve judgement..
incidentally, the chinese just decided to acquire one based on their visit to the one at ASU.

sorry.. I had intended to be in one place when I called you, but got a message from my spouse, and went to an ill-fated lunch where she pleasantly walked out mid-meal.. so it was a success all around.. In any case, this weekend I am simply relaxing and regrouping and I wanted to have a long conversation with you about many things, if it suits you.. so give me another time to call.. I think I am going to go for a long run now, just to clear my head.
