**Subject:** Duke's security

I spoke to Julian, one of the Duke's protection officers. He asked if I knew of any plans over the next few days. ...he also asked if he could stop by tomorrow morning to see the house. He is not positive yet if the Duke will need a ride from the airport. He will let us know tomorrow. He also said he will most likely keep the hotel room so not to be too in the Duke's face. They will find out from the Duke what he prefers.
