Subject: Trying to reach you

Sorry we couldn't reach you earlier, but your phone number didn't work, and then, i had to give a talk, and have been in meetings.

Thank you for helping Isabel get to the WEF, that was really important to her. Interestingly, I just got confirmed today as a speaker for three different talks at the World Economic Forum at Davos in January, but as a confirmed main speaker, all expenses are paid by them. So, it's exciting for both of us.

Apparently, people are really enjoying that "interview" that I posted on your site, and is getting "tweeted" by people who have millions of followers....

I am trying to hook up again with Pablos. How late can we call?

Things here are crazy, and I have to leave at 5:00 a.m in the morning as I am hosting this big math event at my house tomorrow.

Hope all is well. Working very hard on your end...

best,
me
