j, what type of thing do you think you want for the library ceiling?
Solid color, or detail? I know Ion spent sometime creating samples for it but
don't know what you preferred the best.

Are there any other pending questions you want answered other than the location
of the library panel that's on it's way, as we can co- ordinate answers with the
trip to the Island and 71st.

Glad you had a good weekend. xx
