The note is asking if you'd like to be his +1... I don't know if both Samantha and myself could go... It'd be better for her to see, but it seems like this is Jarecki's invitation...

I keep missing you... The voicemail is clear and I have the shitty phone on me :) How big of a mess do you have there? I hope things are looking good and coming along.

Al is excited for you to see the screen debut of his co-star Jessica Chastain. He believes she is one of the best female newcomers of the last decade. In Al's own words, "She is a total revelation." and the very reason he made the film. After Terrence Malick saw a rough cut of WILDE SALOME, he quickly cast her in the lead roll of his upcoming film, TREE OF LIFE with Sean Penn and Brad Pitt.

In WILDE SALOME Al Pacino takes us on a journey as he unravels and re-interprets Oscar Wilde's once banned and most controversial work SALOME, a scintillating tale of lust, greed and one woman's scorn.

Al Pacino's WILDE SALOME is a contemporary documentary that invites audiences into the world of Al Pacino as never before seen. It's an intimate portrayal of one of the cinema's great icon's playing his most demanding role: himself and King Herod.

Brimming with shockingly candid moments, WILDE SALOME ventures with Al all over the world to London, Paris, Dublin, New York, Los Angeles and even Al's backstage dressing room. Nothing is off limits as Al explores the complexities of the play and the trials and tribulations of Wilde's life. Both touching and deeply funny, Al's journey in WILDE SALOME is one of passion, determination and above all, obsession.
