Wanted to give you the list of people Barbary Marsh thought you would find interesting (in case you need for your 10am call tomorrow with him)

Pasko Rakic, (you need to talk to him to hear what he is doing in areas of interest; it is not evident from his site)  
[REDACTED]

Richard Anderson (again, one needs to talk; he is doing a lot of advanced stuff off the record for DoD, he might admit...or not)  
[REDACTED]

Ralph Adolphs (again, more than what is written...the pattern among neuroscientists is a little spooky)
