[DK edit Interview.docx](#)

Do you want to take a look at this and make any suggestions? It is a bit too technical for me.

Hi Al!

Finally kinda online from a 70s throwback (Harbin Hotsprings)- no real Internet here alas!
Here thru tomorrow afternoon.

Attached is edited word file from the interview.

Please take a pass at it/edit... and see what makes sense from the layperson/reader perspective.
I'm not sure how you handled prior interviews.

Send back, and I'll do some final tweaks, can send out tomorrow afternoon. I think perhaps it should be restructured so it is readable to a general audience, perhaps add in some relevant links?

What is the website its going to goto? so I can see some example of others?

thnx, and apologies for the delay

Daniel
