Yesterday, I gave Richard Axel a tour of ISF labs.

Also, I organized a dinner with Bill. Bill just arrived from vacation night before, barely slept, worked whole day and still met us for a dinner that ended up lasting almost 3 hours.

Dinner was very small – I also invited George Whitesides who was visiting Seattle and Lowell (another scientist that is right hand of Nathan). Nathan was not there.

Today , there was a follow up mtg with few scientist, including Axel, and Bill.

As this is the first time that Axel met Bill, I am curios for his insights?

Talk to you soon.

Super busy here

B
