Subject: kitchen cabinets

Jeffrey

I pulled the trigger on Tom Hoch to do the cabinets.(8 weeks \$108,500 installed, we handle shipping and stone)and is sending his forman to LSJ next week to confirm measurements an coordinate with us on schedules.

Tom normally does spring seats for the banquette seats but recommends memory foam for a more residential feel,any preference?

You also need to select the fabric,as it normaly has some lead time to get.

Doug is to collect the other finishes ,stone ,color,final appliance specs.
