Hope you are having fun!

Just a quick question:

I was planning a party for Sam 30 bday but some problem appeared w space. Trying to find an empty space where I can have about 60 people for a party in NYC on Saturday night November 20<sup>th</sup>.

Do you have idea/suggestion?

Ideally I would like an empty space where I will bring my own bar, bartenders and music.

If you do not, do not worry – it is not a must.

I have a plan B to go away that weekend instead of a party.

Boris
