**Subject:** Palm Trees

Good Afternoon,

I Just wanted to pass on the latest information regarding the plants in Puerto Rico. I have been in contact with the farm. Unfortunately, they have been experiencing much of the same weather that we have.

Due to the recent storm, and the incredible amount of rainfall it brought, we cannot expect to start moving trees for at least another two weeks.

We will continue to monitor the conditions, and as the level of soil saturation decreases, we can set a date to mobilize.

Thank You,

Igala
