**Subject:** New material up

Jeff,

As I mentioned in a couple of earlier posts, through an enormous amount of effort, we got a whole section of stuff removed from the news searches and the main web; however, a few hours ago, two nasty brand new articles were published by the Palm Beach Daily News. News articles spill over unto the main web, and these two are showing right up the top.

We will be, of course, working to get these now removed...
