Here's the link:

[Jeffreyepsteinsports.com](http://Jeffreyepsteinsports.com)

I actually think it is quite funny.

BTW, the search team has NOT sent our content out to the various services, and building up the various links that greatly promote all this material to the tops of the search engines, which is why you are not seeing "results" on the main pages of google yet. They need us to finish what parts of what we are doing first.
