Title: Re: Inventory program Hi Jeffrey,

The quick and simple one:

Quicken Home Inventory Manager

<http://quicken.intuit.com/personal-finance-software/home-inventory-manager.jsp>

The all inclusive, comprehensive estate-tailored:

<http://www.alternetwork.com/>

We are creating a more user friendly version with comparison reports capability (probably 3 months away).

For wines and other items that can be scanned:

<http://www.intelliscanner.com/>

Hope that helps,

Dasha
