Hi Jeff,

I need some uninterrupted time with you to go over the web management stuff. We have already spent a lot of time on it, and we will need to go over a few things, before we actually start implementing the approach. We don't go off like a unleashed cowboy. We want to provide you with an outline of the approach for your approval, and at the same time, get some things from you that we will need for this approach.

Let me know what time works for you. I will basically make myself available for you anytime.

On other matters, everything appears to completely under control with your january shin-ding, and everyone is very much looking forward. It is an amazing group, and you will have lots of fun... :-) Fun and smart!

Cheers, my friend.

P.s. did you get the Hughes hung properly under the right lighting conditions?
