Subject: Phone line at 71st

May has investigated having the 9895 phone number roll over to another number at the house (so that if I am on the 9895 line and you or someone calls, I can put the 9895 number on hold and pick up another line quickly) Please see below and let me know if it is ok to use YOUR 3rd and 4th lines as "office" lines while I work from the house...

Alternatively, the call waiting function should work at the house and when I hear a beep, I should be able to hit the flash button and pick up the person calling in...but I will not be able to transfer (or do anything with the call) until I hit flash again and hang up with the first person. There will be more flexibility if we have the 9895 roll over.

Let me know if ok to use your 3rd and 4th lines or if you prefer we use the call waiting function on the "private" line I have been using.

Subject: Forwarding Jeffrey's number

Hi [REDACTED]

Per your request, I've checked with Verizon and we are able to forward line [REDACTED] to [REDACTED] (JE's 4th line) with [REDACTED] (JE's 3rd line) as a rollover. Unfortunately, we're not able to disable the call waiting feature on [REDACTED] because it belongs to Broadview and [REDACTED] belongs to Verizon. We can only rollover numbers within one Phone company.

Please check with Jeffrey if that is okay to proceed and let me know if you have questions.

Thanks,

May
