**Subject:** Paris weather

Jeffrey,  
starting 5 pm today, Rain in Luton, don't expect any delays, however, we cannot land after 11:30pm, in Paris, and they are firm.  
at this time we have a 45 min cushion for arrival, I recommend showing up at 8:30pm or little earlier in case there is any departure delays or slots, slot situation is determined 2 hours before departure, I will keep you posted,  
Paris weathers should be good for our arrival, Midnight the ceiling goes to 100 feet, they are partly cloudy all day today in Paris, High 69 degrees, lows of 54 degrees,  
thanks  
Larry
