I unexpectedly must leave this evening for Nigeria. I have tried hard to delay this trip but it is with the country President and I have no alternative. I have passed all the documentation to my partner, Jon Parker, and he will be able to assist you in completing the transaction. I will have e-mail access but not the ability to open attachments. Hopefully we can resolve the contract issues and get the funds into deposit early this week per our telephone and e-mail exchanges of last week.
