**Subject:** Washer / Dryers

Jeffrey,

I just spoke with [REDACTED] about this and the reason we need to get the new appliances is the current one's we purchased during [REDACTED]'s tenure I'm told can not handle the work load that is needed.

I got a quote locally that is the same as the states before delivery cost which is \$ 8,200 for 4 washers and 4 dryers. However a change from electric to gas dryers was made and I was told that should only increase the cost by \$ 100 in total but I will have to get that in writing and than we will request approval for the purchase

Thank you
